

## Personal Digital Device Agreement

*Students and parents/carers to complete all other fields. If students and parents/carers are signing electronically, save the document after all details and signature are complete (saving a document after signing will lock it for editing).*

To use a personal digital device of your own, such as a laptop, tablet, smart phone or wifi-enabled storage device, you need to follow these agreed practices.

### Student Agreement

I request permission to bring and use the following devices for educational purposes:

#### What I will do:

- Follow instructions given by a teacher about my personal device. This includes putting away the device on request and only using approved applications while the device accesses the school network.
- Use only the BYOD wifi network at school.
- Follow all the conditions I have agreed to in the [Student Acceptable Use Agreement](#) when using a personal digital device.
- Ensure my device is stored securely when not in use.
- Ensure my device has up-to-date operating systems, software and hardware patches, including antivirus protection on appropriate devices.

#### What I will not do:

- Use software to disguise my location or device while accessing the school network, such as Virtual Private Network or third party proxies.
- Lend my device to others while at school.
- Use my device in a way that interferes with my or others' learning, or the school's networks and ICT systems.

### Breaking the Personal Device Agreement

I acknowledge that if I break the Personal Device Agreement, the school may confiscate my device and return it to parents, ban me from taking personal devices to school and/or ban the device from accessing the school network. If required, personal devices may be provided to law enforcement rather than returned to parents.
